Scenario:

You are a young adult struggling to keep up with monthly payments. You excessively spend on non-essential items which causes you to overspend each month. You would like there to be a for you to track spending and save money.

Task 1:View your monthly spendings to view how close you are in reaching monthly spending limit.

Task 2:View your spendings categorized.

Task 3:See how much you were spending last week.

Notes:

Changes:
1. Have a more detailed view for each sub menu.
2. Have additional sub menus on the app.
3. Add more options to the user profile page.

Keep:
1. The layout of the menu.
2. Overall feature of each sub menu
3. The profile set up page.
